RESCINDED

Notice: Customers on Barrier Dunes Dr, Sabal Cir., Myrtle Dr., Sandpine Dr., and all of Seacliff's

Your water service was interrupted yesterday, 1/4/2024, to repair a busted water main. A *Precautionary Boil Water Notice* has been issued until repairs are made and clearance is given.

You are advised to bring water to a rolling boil for 1 full minute prior to using for drinking, cooking, or brushing teeth or use bottled water until further notice.

The water will be field tested immediately after the repair is complete and we will submit water samples to our lab to confirm our sample results.

The estimated time of repair and clearance is approximately 4 days. You will be notified as soon as the *Precautionary Boil Water Notice* is rescinded.

Thank you for your cooperation and don't hesitate to call me @ 850-340-0118 with any questions or comments you have.
